

How much fresh water do you use?

Fill out Table 1 and multiply across.
Then sum up your totals

(Sources: City of Wixom, Michigan; City of Tampa, Florida; City of Norman, Oklahoma; USGS; EPA; Water Education Foundation; International Bottle Water Association).

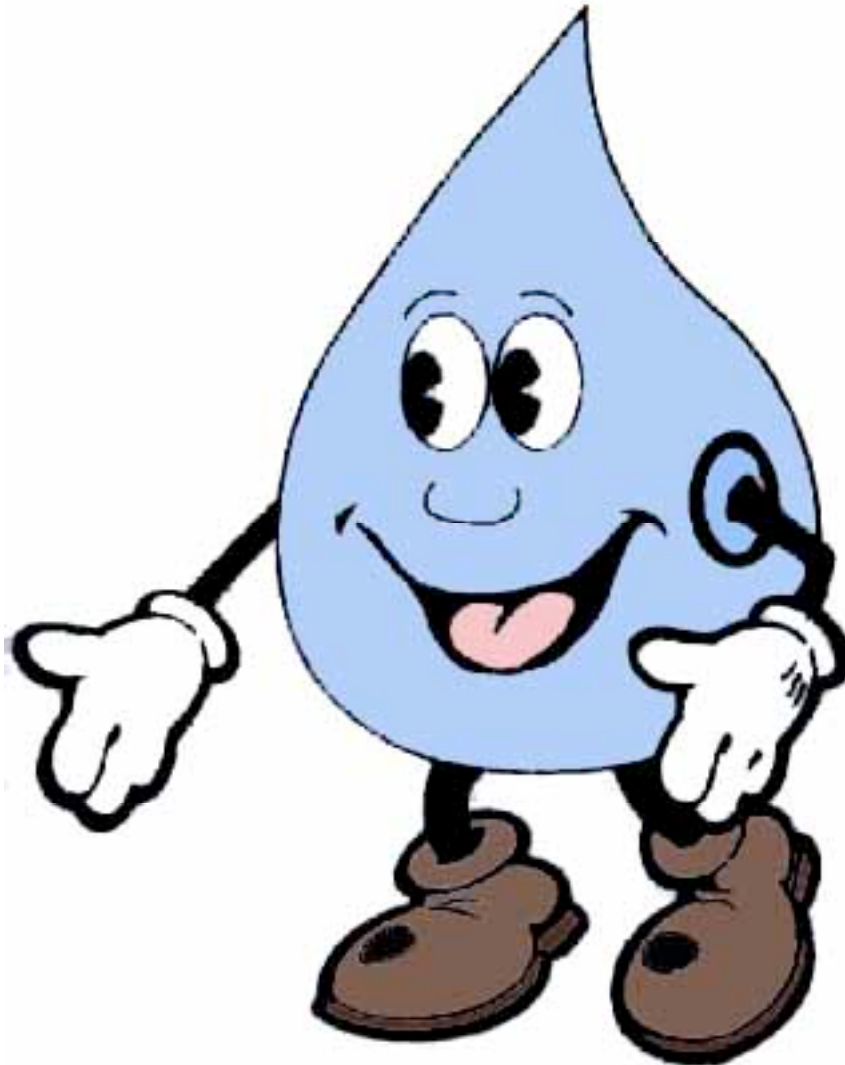

Image from St. Augustine, Florida Blog.

Table 1. How much fresh water do you use? Does not include washing cars (50 gallons per car) or watering the lawn (about 300 gallons per lawn).

Water Usage As Average Values		Number In Household	Number of Uses PER DAY	Total Gallons Per Day	Number of Gallons Per Week (7)	Number of Gallons Per Month (30)	Number of Gallons Per Year (365)
Toilet	Gallons Per Flush = 4		Flushes Per Person =				
Shower Short (5-10 Min)	Gallons Used = 25		Number of Showers Per Person =				
Shower Long (>10 Min)	Gallons Used = 45		Number of Showers Per Person =				
Baths	Gallons Used = 35		Number of Baths Per Person =				
Brushing Teeth	Gallons Used = 2		Number of Brushes Per Person =				
Dishwashing	BY HAND Gallons used = 10	NA	Number of Washes =				
Dishwashing	BY MACHINE Gallons used = 20	NA	Number of Washes =				
Laundry	Gallons Used = 45	NA	Number of Loads =				
Breakfast Lunch Dinner	Gallons Used (Cooking, Growing & Processing Food) = 4533		Gallons Used Per person = 4533				
			Totals =
